HRF - 30 Infra Red Control Film

Infra red control window film is designed to limit the amount of heat emanating from the sun through glass, whilst still allowing plenty of natural light. It can be applied internally on any glass surface. This product is ideal for home or office and will help in keeping the heat out in the summer. It will also help in keeping up to 20% of the heat in in the winter.
The film is clear with just a slight tint.

PERFORMANCES

U.V Transmission	1 %
Visible Light Reflection	7 %
Visible Light Transmission	70 %
Total Solar Energy Rejected	49 %
Solar Reflection	27 %
Solar Absorption	26 %
Solar Transmission	47 %
Glare Reduction	20 %
Infra Red Rejection	**70%**
“g” Value (solar heat gain coef.)	0.54
“u” Value (EN673W/m².°K)	4.90
Emissivity	0.84
Scratch Resistant Coating	✓
